**GEOGRAPHICAL MOBILITY IN THE PAST YEAR BY INDIVIDUAL INCOME IN THE PAST 12 MONTHS  
(IN 2016 INFLATION-ADJUSTED DOLLARS) FOR RESIDENCE 1 YEAR AGO IN PUERTO RICO**  
Universe: Population 15 years and over  
2016 American Community Survey 1-Year Estimates

This table provides geographical mobility for persons relative to their previous place of residence. The characteristics crossed by geographical mobility reflect the current survey year. The estimates do not include people who moved to other U.S. Island Areas or Foreign Countries.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

**Tell us what you think.** Provide feedback to help make American Community Survey data more useful for you.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

	Puerto Rico	
	Estimate	Margin of Error
Total living in area 1 year ago:	2,905,436	+/-7,343
No income	752,869	+/-10,869
With income:	2,152,567	+/-11,669
\$1 to \$9,999 or less	860,450	+/-14,161
\$10,000 to \$14,999	363,958	+/-9,699
\$15,000 to \$24,999	447,839	+/-9,024
\$25,000 to \$34,999	204,719	+/-6,899
\$35,000 to \$49,999	139,017	+/-6,327
\$50,000 to \$64,999	59,973	+/-3,933
\$65,000 to \$74,999	18,125	+/-2,217
\$75,000 or more	58,486	+/-3,568
Same house:	2,668,867	+/-8,671
No income	687,093	+/-11,301
With income:	1,981,774	+/-11,568
\$1 to \$9,999 or less	790,945	+/-13,289
\$10,000 to \$14,999	336,714	+/-9,542
\$15,000 to \$24,999	413,762	+/-8,554
\$25,000 to \$34,999	188,183	+/-6,577
\$35,000 to \$49,999	127,195	+/-6,212
\$50,000 to \$64,999	55,344	+/-3,689
\$65,000 to \$74,999	16,964	+/-2,252
\$75,000 or more	52,667	+/-3,583
Moved within same municipio:	100,326	+/-6,036
No income	28,713	+/-3,300
With income:	71,613	+/-5,178
\$1 to \$9,999 or less	33,437	+/-3,417
\$10,000 to \$14,999	11,481	+/-1,594
\$15,000 to \$24,999	14,437	+/-2,068

	Puerto Rico	
	Estimate	Margin of Error
\$25,000 to \$34,999	5,272	+/-1,304
\$35,000 to \$49,999	3,518	+/-1,088
\$50,000 to \$64,999	1,405	+/-827
\$65,000 to \$74,999	461	+/-365
\$75,000 or more	1,602	+/-816
Moved to different municipio:	65,648	+/-6,086
No income	20,225	+/-2,863
With income:	45,423	+/-4,489
\$1 to \$9,999 or loss	17,223	+/-2,510
\$10,000 to \$14,999	7,862	+/-1,481
\$15,000 to \$24,999	9,626	+/-1,905
\$25,000 to \$34,999	4,736	+/-1,134
\$35,000 to \$49,999	3,549	+/-1,112
\$50,000 to \$64,999	920	+/-582
\$65,000 to \$74,999	111	+/-142
\$75,000 or more	1,396	+/-790
Moved to the United States:	70,595	+/-6,338
No income	16,838	+/-2,441
With income:	53,757	+/-5,742
\$1 to \$9,999 or loss	18,845	+/-2,911
\$10,000 to \$14,999	7,901	+/-2,494
\$15,000 to \$24,999	10,014	+/-2,132
\$25,000 to \$34,999	6,528	+/-1,664
\$35,000 to \$49,999	4,755	+/-1,109
\$50,000 to \$64,999	2,304	+/-794
\$65,000 to \$74,999	589	+/-471
\$75,000 or more	2,821	+/-821

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Tables for Geographical Mobility by Residence 1 Year Ago in Puerto Rico are only available for Puerto Rico; Municipios; Places; Combined Statistical Areas; Metropolitan and Micropolitan Statistical Areas, and their associated Principal Cities.

While the 2016 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
